PARTS THERAPY
C. Roy Hunter
Wednesday - Thursday
May 17th -18th

How can you effectively help the client who struggles with an inner conflict? Someone strongly desiring to attain a goal, but who also experiences self-sabotage, may be a prime candidate for PARTS THERAPY. Often using different names, others emulate this profoundly beneficial technique taught and practiced by the late Charles Tebbetts. Competently facilitated, parts therapy often helps people get past their barriers when other techniques are insufficient; however, there are pitfalls that must be avoided in order to maximize results for your clients. This workshop is experiential, and is a MUST for anyone not totally familiar with parts therapy or one of its variations. Roy Hunter, your facilitator, is the published author of two hypnosis texts, as well as *Hypnosis for Inner Conflict Resolutions: Introducing Parts Therapy* (Crown House Publishing 2005). All who attend will receive a participant workbook. When clients have an inner conflict, parts therapy often helps to resolve the conflict even when other hypnotic techniques fail.

Participants will learn:

-What parts therapy is –when to use parts therapy –Why parts therapy is best for some clients - How to use parts therapy (complete step-by-step process) –How to explain parts therapy to your clients, and why such explanation is needed –Why it is so important to be an objective mediator –How to avoid inappropriate leading, and the potential consequences of not doing so –Why Roy Hunter added an important update on the Tebbetts Methods –How to avoid pitfalls that could put clients farther away from success –Participants will have break-away practice sessions.

METAPHOR MAGIC
K. Hand & S Gilbert
Wednesday - Thursday
May 17th -18th

Do you remember the story about the boy who cried wolf?

How old were you when you heard that story designed to teach a lesson? Isn’t it interesting that you still remember that story and its meaning all these years later. That’s a powerful post-hypnotic suggestion, is it not? That’s the magic of metaphor and story-telling.

You can craft a perfectly positive and well-worded suggestion, but it’s the mind magic of the metaphor that is likely to spawn lasting change, just like that little boy who cried wolf.

Discover how to elicit meaningful metaphors from your clients, children, partners, employees, etc. In the simplest form, you’ll have a better understanding of the pictures being made in the head of the story-teller and in the best-case scenario; you’ll have a perfect path toward change for good.

In this course you will learn very powerful techniques to use in groups or in private sessions to reveal the power of the metaphorical mind. You will discover how to use symbols for powerful change-work. You will experience how to create metaphoric magic and how to ask the right questions to gather important information from your client to build rapport and speak the language of THEIR mind.

In this course you will discover:

- How to use your client’s metaphors to create a session.
- Handy metaphors to have at the ready for a variety of applications.

- How to turn metaphors into stories
- How to use metaphor in private sessions and with groups
- Metaphors for working with children
- Script-writing on the fly using provided metaphoric material.

Attendees will walk away confident and excited to immediately use metaphors in their sessions, workshops and scripts. This course includes several hands on activities to give attendees a fun, memorable and effective experience that can easily be adapted for their practice.

TRANSFORMATION & FLOW
E. Jorre
Monday
May 22nd

Take a one-day trip into the world of extraordinary hypnotic and magical states of consciousness and transcendental experience while learning to “flow” with your clients in session. We will be exploring, experimenting, and creating with the key components of flow. Getting in sync with your client and allowing the session to develop naturally is the cornerstone to generative, transformational change.

Never worry in advance about what technique or script you're going to use, but utilize the wisdom within the therapeutic relationship, letting the session unfold spontaneously through deep listening, observation and feeling - creating the space for deep transformation. We'll look at this concept through the lens of neuroscience, biochemistry, trust and safety, mysticism and creativity as if we were painting, composing, dancing and building a unique piece of transformational “Art”.

PAST LIFE REGRESSION
J. LeClaire
Monday
May 22nd

Attendees will learn Past Life Regression technique that uses hypnosis to recover memories of a past life (incarnation) and is typically used as a spiritual experience. History of PLR will also be covered and attendees will receive a certificate of completion.

Past Life Regression can help you to uncover untapped gifts, and talents and can release old negative energy and habits that no longer serve you and unleash new positive energy and enlightenment.

The person may view personal relationships in a new light, energize talents, reduce fears and traumas linked to a past life, and understand their life purpose. Past life regressions can also offer opportunities to explore agreements and relationships of past lives, and even offer an explanation of habitual behaviors.

During a past life regression, you are in a deep state of relaxation. The guidance you receive will be much like a guided meditation, and will usually begin with progressive relaxation. You will be walked through a series of experiences that may be memories of past lifetimes. The 'memories' themselves should be produced by your subconscious mind, and appear to you as if they were being revealed. Questions are asked and connections are made to and from the past.
